

The complete set „Bluetooth“ is especially suitable in situations where staff is on the move, brings things from shelves to the customer and wants to stay in touch with the customer in case of questions. If two microphone units cannot be connected by cable through a completely closed protective wall, the Bluetooth variant also the ideal solution!

# VoiceBridge

Set: Bluetooth

## Maximum mobility with excellent speech clarity

The Bluetooth set enables employees at the POS and sales counters to work and advise normally despite protective walls and safety distance: this VoiceBridge intercom can be connected to a Bluetooth headset (included in the set) so you never lose contact to the customer.

The Bluetooth headset is also ideal in combination with a protective visor and mouthguard and can simply be muted with just one touch of a button.

### Microphones

Suitable for larger speaking distances. No need to come closer or speak extra loudly.

### Infrared sensor

Automatically detects when a customer is present. Hygienic operation, without having to press any buttons.

### Noise Reduction

Suppresses ambient noises.

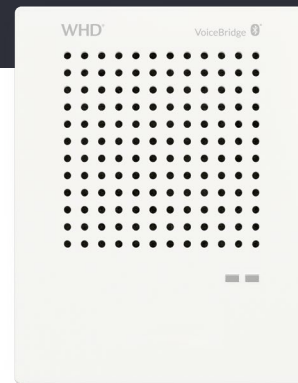

### Acoustic Echo Cancellation

Prevents annoying echoes.

## VoiceBridge Complete-Set: Bluetooth

SKU	111-020-04-300-00
RRP excl. VAT:	167,98 €
